ABOUT

With over 8 years of experience building innovative web applications and scalable SaaS platforms, I specialize in solving complex integration challenges and crafting data-driven solutions. My expertise spans modern full-stack development, AI integration, and data visualization. I bring a design-focused mindset with strong UI/UX sensibilities and a stack-agnostic approach, ensuring each solution is both technically robust and user-centered.

WORK EXPERIENCE

Phamax — **Bengaluru, India**

Ariya — AI platform for pharma that streamlines content generation, information research, analytics, and engagement.

May 2025 – Present

Principal Engineer (Ariya Platform)

Leading engineering for Ariya, an AI-powered platform transforming pharmaceutical content workflows, research, analytics, and engagement. Driving the design and delivery of scalable, compliant, and intelligent systems integrating generative AI with enterprise ecosystems.

Highlights

- Architecting core systems for Ariya, an AI platform enabling end-to-end pharmaceutical workflows across content creation, research, analytics, and engagement.
- Built the AI Content Wizard for modular, brand-compliant content generation integrated with Veeva CRM and downstream engagement platforms.
- Designed and implemented content lifecycle management covering authoring, approval workflows, compliance validation, and omnichannel distribution.
- Developed advanced LLM orchestration frameworks including prompt engineering, context injection, and retrieval-based augmentation (RAG).
- Integrated Ariya with enterprise ecosystems including Salesforce Marketing Cloud (SFMC), CRM systems, and external data providers.
- Led development of a centralized Data Catalog enabling metadata-driven discovery and self-serve data access across teams.
- Implemented governance, auditability, and traceability mechanisms aligned with pharmaceutical regulatory standards.
- Drove frontend architecture for complex workflows using scalable design systems, component libraries, and state management patterns.
- Optimized AI and data pipelines for performance, cost efficiency, and scalability using caching and vector databases.

Comviva — **Bengaluru, India**

MobiLytix™ Rewards & MobiLytix™ Digital Marketing Product

https://www.comviva.com/products-solutions/martech/cvm/mobilytix-rewards/

December 2021 – March 2025

Technical Lead

MobiLytix™ Rewards is a next-generation engagement marketing solution designed to power loyalty programs and promotional campaigns across industries.

EDUCATION

2014 – 2018

Birla Vishvakarma Mahavidyalaya Engineering College, Vallabh Vidyanagar

https://bvmengineering.ac.in/

Bachelor of Engineering

Computer Engineering

SKILLS

Platform Engineering & DevOps

- Source Control Governance
- CI/CD Pipeline Architecture
- Automated Deployments
- Infrastructure as Code (IaC)
- Code Quality & Testing Standards
- Security and Compliance Automation
- Observability & Monitoring

Artificial Intelligence

- Large Language Models (LLMs)
- Generative AI Systems
- Context Engineering
- Prompt Optimization
- AI-Augmented Workflows
- Vector Search & Databases
- AI Content Generation Pipelines

Programming Languages

- JavaScript
- TypeScript
- Python
- SQL
- Go
- HTML5
- CSS3

Frameworks & Tools

- ReactJS
- NodeJS
- ExpressJS
- FeathersJS
- Strapi
- Kafka
- Nifi
- Contentful
- Redux
- Shopify SDK
- GraphQL & REST APIs
- Git & GitHub Actions
- OpenAI API & LLM Integrations
- Storybook
- Zustand
- ShadCN/UI
- Turborepo

Highlights

- Leading the modernization of the MR platform into a cloud-agnostic SaaS product with AI/ML integration.
- Driving architecture and feature development using TypeScript, React, FeatherJS, Delta Lake, Postgres, and vector databases.
- Delivering major improvements in scalability, performance, and user engagement through data-driven personalization.

Comviva — Bengaluru, India

MobiLytix™ Digital Marketing Product
https://www.comviva.com/products-solutions/martech/cvm/mobilytix-digital-marketing/
June 2020 – November 2021

Senior Engineer

Contributed to the development of an omni-channel marketing automation platform designed to help enterprises engage customers across digital touchpoints.

Highlights

- Delivered 14+ integrations including Shopify Public App, Seatgeek, HubSpot, AWS QuickSight, GoodData, Matomo, WooCommerce, WordPress, Batch Push, and Unlayer Editor.
- Implemented ML-driven insights using Google BigQuery and GoodData for personalized campaign optimization.
- Enhanced performance through query optimization, caching, and CDN strategies.
- Addressed complex integration challenges related to scalability, data security, and performance optimization.

Tata Consultancy Services (TCS) — Gandhinagar, India

Worked in the Lifesciences domain, delivering digital transformation solutions for global clients.
https://www.tcs.com/what-we-do/industries/life-sciences/solution/tcs-lifesciences-interactive
September 2018 – May 2020

Assistant System Engineer

Highlights

- Developed and delivered full-stack applications using ReactJS, Angular, NodeJS, and ExpressJS.
- Enabled business collaboration using Microsoft 365 suite including SharePoint, Teams, Power Automate, and Power BI.
- Implemented GA360-based analytics solutions using Google Analytics, Tag Manager, and Data Studio.
- Contributed to scalable, data-driven decision-making through end-to-end digital solutions.

VOLUNTEER

Google Developer Groups Ahmedabad

https://devfest.gdgahmedabad.com/
September 2018 – Present

Creative Designer

Lead the design team for the GDG Ahmedabad chapter, creating event visuals, branding assets, and social media graphics for community events.

Databases

PostgreSQL | MongoDB | BigQuery | Redis | Cassandra | IndexedDB

Data Visualization & Analytics

Google Data Studio | Power BI | AWS QuickSight | Metabase | GoodData

Design & Prototyping Tools

Figma | CorelDRAW | Affinity Designer Suite | Procreate

GirlScript
https://gssoc.girlscript.tech/
February 2020 – May 2020

GirlScript Summer of Code 2020 Mentor
Mentored open-source contributors during the GirlScript Summer of Code 2020 program, guiding them in project architecture, code reviews, and development best practices.
